

Northgate Vault: Fee Schedule

Northgate Financial Services · Product Reference NGF-PROD-Vault-Fees · Version 4.6 · Owner: Product · Mirrors the Fees tab in Vault

1. How fees are charged

Custody fees are charged quarterly in arrears on the average daily market value of assets held over the quarter. Transaction fees are charged per settled instruction, on the settlement date. All fees are billed in the client's base currency at the exchange rate published on the billing date.

This schedule is referenced by section 6 of the Northgate Vault Product Manual. Where the client agreement specifies different rates, the agreement takes precedence.

2. Custody fees by tier

Tier	Annual rate	Billing frequency	Minimum quarterly fee
Essential	0.35% of AUM	Quarterly in arrears	EUR 150
Advantage	0.25% of AUM	Quarterly in arrears	EUR 750
Private	0.15% of AUM	Quarterly in arrears	EUR 2,500

3. Transaction fees

Transaction fees apply per settled instruction and are the same across all tiers unless a client agreement states otherwise. Failed or cancelled instructions are not charged.

Instruction type	Fee	Notes
Domestic cash payment	EUR 8	Per payment
Cross-border cash payment	EUR 25	Plus correspondent bank charges, if any
Securities transfer, listed	EUR 15	Per line, per settlement
Securities transfer, unlisted	EUR 45	Per line, manual settlement
Standing instruction change	No charge	Self-service in Vault

4. Reporting fees

Standard reports (valuation, transaction history, income, realised gains) are included in the custody fee at every tier. Bespoke report templates, available to Private-tier clients only, are quoted individually and billed as a one-off build fee plus an annual maintenance fee of EUR 500 per template.

5. Fee disputes

A fee dispute is raised through the relationship manager and logged with Client Operations, which must investigate and respond within ten business days as set out in section 6 of the Vault Product Manual. Where a dispute is upheld, the correction is applied to the next billing cycle rather than issued as a standalone refund, unless the client requests a standalone refund in writing.

6. Fee waivers

Custody fee waivers of up to one full quarter may be approved by a Client Operations team lead as a service-recovery gesture following a confirmed incident. Waivers beyond one quarter, or any transaction fee waiver on a recurring basis, require sign-off from the Head of Client Operations.
